## **Bridge Replacement, Pavement Reconstruction on Illinois 132 from U.S. 41 to Waveland Avenue**

**CHICAGO** – The Illinois Department of Transportation (IDOT) announced that lane closures will take place on Illinois 132 between U.S. 41 and Waveland Avenue, in Gurnee, beginning, weather permitting, Friday, July 28. The closures are necessary for a bridge replacement and pavement reconstruction project.

In order to complete the work, Illinois 132 will be reduced to one lane in each direction between U.S. 41 and Waveland Avenue.

The scope of the project consists of removal and replacement of the Union Pacific railroad bridge. It also includes pavement reconstruction and widening on Illinois 132, as well as widening the southbound U.S. 41 ramp.

The overall project is expected to be completed in Spring 2019.

The lane closures for this project are adjacent to lane closures that are taking place for a separate project on Illinois 132 from Ferndale Avenue to Estes Avenue.

Motorists can expect delays and should allow extra time for trips through this area. Drivers are urged to pay close attention to flaggers and signs in the work zones, obey the posted speed limits and be on the alert for workers and equipment.
